

LABHRÁS (LARRY) MAC GABHANN

SUMMARY

UI/UX-FOCUSED FRONT-END WEB DEVELOPER, gradually working my way deeper into the stack. My code takes a [fundamentals-first](#) approach to delighting end users. My development philosophy emphasizes the importance of blending evergreen & emerging technologies to create process-driven, reliable, & maintainable solutions to perennial problems, optimized for change & deletability. I believe in continuous learning, making people laugh, & building things (real) people can use. I love [Astro](#) 🚀.

TECHNICAL EXPERIENCE

COMPATIBLE CONNECTIONS **FRONT-END DEVELOPER** JANUARY 2018 - PRESENT

Solo developer responsible for 3 consecutive iterations ([v3.0](#), [v2.0](#), v1.0) of employer’s site.

- [\(v3.0\)](#): Site-wide rewrite/refactor using [Astro](#) & [islands architecture](#).
- [\(v2.0\)](#): Designed, developed, & maintained a fully-responsive site using foundational web technologies.
- [\(v1.0\)](#): Reviewed, refactored, & optimized legacy “identikit” WordPress site.

Integrated a [Sanity](#)-driven CMS into site using promise-based/asynchronous JavaScript.

COMPATIBLE CONNECTIONS **DIGITAL OPERATIONS LEAD** JANUARY 2019 - PRESENT

Lead head-to-toe rebrand of logo, digital assets, marketing materials, & client materials.

Designed social media graphics, posters, marketing materials & other visual content using GIMP & Canva.

MARATHON CHRISTMAS **FRONT-END DEVELOPER** NOVEMBER 2020 - PRESENT

Solo developer responsible for 2 consecutive iterations (v1.0, v2.0) of [WPRBXmas](#) fan site.

- [\(v2.0\)](#): Site-wide rewrite/refactor using [Astro](#) & [islands architecture](#).
- [\(v1.0\)](#): Designed, developed, & maintained a fully-responsive site using foundational web technologies.

Created & deployed a listener chat room web application using Express.js, Socket.io, & Heroku.

Created [Jon Solobot](#), a tweet-generating AI, using [Twint](#), GPT-2, & [Colaboratory](#).
